Startex

Synergize Product Development and
Sample room operations

Schemax

Startex synergizes product development and sample room operations into an efficient
workflow that enhances productivity and quality for faster and accurate PD & sample delivery.

BUSINESS BENEFITS

Increase the order visibility at PD 100%

Less human intervention and no dependency on hierarchy, enabling seamless function of all related parties for multiple locations assets management.

Enhances Employee Productivity by 30%

Employees are more focused on the process rather than firefighting on manual documentation and reconciliation

Streamlining of Sample room operations by 100%

Promotes digital way of working and keeping records, thus reducing paper based evidence for assets management including compliances and annual audits.

Improve overall ROI by 20%

When all related resources are optimized, there is significant financial benefits across all cross functional departments which lead to improved return on investments
